## Still healthy after Flesh eating Disease

Mar 3/13

Two years ago today exactly (2011), I had emergency surgery for full blown Flesh Eating Disease in the lower part of my body. I was immediately put on the list of the Burning Bush Christian Crusades, and through the Grace of God and the blessings of all your prayers, I came through the first and second surgeries.

I literally had the hand of Jesus on my shoulder as I went through all the recovery process. Every step of the way the Lord walked with me, I felt his presence by my side.

I have recovered from a disease that so many die from. Even though my day to day routine might of had to be altered a bit, and maybe I have to do it a little slower, but I am healed and can do anything.

Praise Jesus, I am still here to do these tasks. THANK YOU JESUS.

Every morning and every evening and several times a day I just stop and say. Thank You. Thank you for saving my life and for my healing. Thank You, Thank You, Thank You

I can say for a fact that when you call out to the Lord, he HEARS YOU AND IS WITH YOU.

Like any family member or friend who has done something wonderful for you - don't forget to be grateful.

For the Praise and Thanks to the Lord, call it out - Remember, he hears you. Thank you all and God Bless you for being in our prayer circle.

Gratefully

Brenda-Ann
